DIPANKAR JANA

Senior Software Engineer | Frontend Engineering

+91-9674878096 iamdipankarj@gmail.com https://linkedin.com/in/iamdipankarj/ https://dipankarjana.com/
India

SUMMARY

Detail-oriented Frontend Engineer with **8+ years of experience** building responsive, high-performance web applications using React, TypeScript, and modern JavaScript frameworks. Proven track record of delivering scalable UI solutions, collaborating cross-functionally with design and backend teams, and optimizing user experiences across devices. Passionate about clean code, accessibility, and continuously improving frontend architecture.

EXPERIENCE

Senior Software Engineer - Frontend

TechnoMile

10/2025 - Present India

Company Description

- Worked with the frontend team to lead various engineering initiatives.

Senior Software Engineer - Frontend

OkCredit

01/2021 - 09/2025 Bengaluru - Remote

Led a team of engineers in the development and designers of new and upcoming products.

- Built the end-to-end frontend for the Loan platform, enabling **$50 Million+** in disbursal at scale.
- Led the migration of legacy codebases to modern frameworks like React, while leveraging **HTML5** and **CSS3** for improved performance and maintainability.
- Built several platform-related tools, such as an in-house component library and other utility libraries for **React** and **React-Native**.
- Worked with **Swift** and **Kotlin** to build native modules for our React Native apps.
- Used **Expo** and **EAS** to build and deploy apps.
- Have worked on building the base architecture for React apps, using plugins like Redux, Redux-observable, Redux-Saga, custom React hooks, and languages like TypeScript.
- Maintained design consistency across {5} applications, improving user experience by utilizing TailwindCSS and CSS-in-JS.
- Implemented **CI/CD** pipelines using GitHub Actions to automate build, test, and deployment processes for our applications. Have used **Jest** to write unit tests for the same.

Software Developer

Healofy

06/2018 - 01/2021 Bengaluru, India

The core application stack uses Google Cloud Platform for the backend and **React.js**, **Next.js** for the frontend.

- Used modern technologies such as SASS, ES6, and Webpack.
- Increased operational efficiency by 25% by developing several internal tools and dashboards for the operations team.
- Optimized the legacy webpages to reduce the **page load time by 60%**, enhancing user retention.
- Enabled a **20% user retention** increase by implementing a new user onboarding process.

EXPERIENCE

Frontend Developer

Clearfunds (acquired by MobiKwik)

05/2017 - 05/2018 Mumbai, India

Clearfunds was an online platform for buying and selling mutual funds.

- Increased investor fund allocation efficiency by 30% using **Vue.js** for Fund Finder's user-friendly frontend.
- Enhanced backend efficiency by 40% through collaborating on Ruby on Rails integrations.
- **Investor Dashboard** - Created a dashboard that is used by investors, development required the use of **Vue.js** and **Vue-Router**.
- Have built a **Vue** component library for investor dashboards.
- Increased mobile user retention by 20% by designing responsive UI components.

PROJECTS

Larakit - A Laravel 11.x Starter Kit

https://github.com/iamdipankarj/larakit

Larakit is a lightweight and powerful Laravel starter kit designed to streamline web application development.

- Built-in authentication using cookies and Laravel Socialite.
- Role-based access control.
- React-based frontend using Inertia.js.
- Dashboards and charts using TailwindCSS.

ImageGen - AI Image Generator

https://github.com/iamdipankarj/imagegen

Let AI design the perfect image for you. Just describe your image and get it in seconds. Generate High-Quality Portraits instantly. Upscale your photos easily. Restore your memories from any old photograph.

Kompoze - A React Component Library

https://github.com/iamdipankarj/kompoze

Simple React component library to build faster and more accessible React applications.

Portfolio Website - dipankarjana.com

https://github.com/iamdipankarj/dipankarjana-site

A developer portfolio website built using Svelte 5 and Express.js. It can be used as an extension of your portfolio alongside your resume. Use this as a template to get started.

Nature Drive - A Driving Simulator Game

https://vimeo.com/1058960148

An immersive driving simulator built with Unity 2022. It offers a mesmerizing journey through breathtaking landscapes that defy reality. Navigate through dreamlike terrains, floating highways. Whether cruising through serene mountaintops or traversing futuristic tunnels, every road is an artistic experience.

PhotoWorks - AI Image Generator

https://apps.apple.com/us/app/photoworks-ai-photo-magic/id6749472765

Turn your imagination into stunning visuals with our AI-powered image generator. Enter a prompt and watch your ideas transform into high-quality artwork, photos, and designs in seconds—right from your iPhone.
Used **Expo** and **EAS** for build and deployment, along with **Supabase** for DB and **NodeJs** with **Fastify** for backend servers.
